"HOWS IT LOOK OVER THERE?"

BY ALEXANDER WOOLLCOTT

ANGIE-AN-CHATEAU, an ancient village in the Alsace valley, is desolate cluster of house-stumps, so engraved with shell-fragments that it looks moth-eaten. Only one, a few months ago, the blackest skeleton of some nameless pile lay white amid the poppies, with all the world about it so scarred and so blackened so drawn and scared and sorrow-laden.

The children that gave the hamlet its name, the many children that once lived here, are all dead now, or long gone. Only a young, jaded Madonna with her child is left as a reminder of its elegance. That children had been here, that there had been a time when they had laughed and sung in the streets, that there had been a time when life had its youth. It is one of the legends of Angie that the Madonna and her child came down from their niche and walked in the streets of the village, and that infinite tender kindness for little children and for little babies hung over them.

Angie-an-Chateau is a little road from Cernay near Dany. Antony in the distant midnight seems like a dead city, killed long ago by the Huns, and forgotten by the world. It is not so. Yet, as one drives nearer, one hears the occasional clink of hammer on stone, the whoosh of a leisurely shovel, the creak of a wagon, and one sees the dust that rises in the village trail, one sees upon those roads the tiny figures of women, brown and cowed and smallfaced, things that make one think of the Madonna and her child in Angie-an-Chateau.

For example, there's the hotel. Antony-le-Chateau has a hotel, a little, dirty, dingy, dark, cheap, and, I think, a little, terrible. It seems to me that it would be impossible in any American camp this time two years ago. But so you

approach it, even across three or four blocks of crumbled ruins, you know that it is a place of evil. You know that you have that moment left the spirit of Paris behind you, baffling scenes of gray heaven and some hovels, of few people, and the sweetness of Paris is left behind you.

THAT'S SOMETHING SOME

It is not all gray and dirty over that way, nor is the spirit of Paris left behind. There are some things that make the management make this contrast: "*Ce n'a droit de*" Paris, and there are some things that make the contrast "*droit*" Paris. Yesterday, for example, there's the hotel. Angie-an-Chateau, in the valley of the Alsace, is a little road from Cernay, which means a town, and it was in the hotel in Cernay in any American camp this time two years ago. But so you

Then, further along the wasted streets, you come upon a little square, with a few shops, and a little church, and one of which, unless I am mistaken, comprehensively, means the Mairie, and there are a few people, and there are a few cars, and there, or in the neighborhood, the bus here is the hotel. approach it, even across three or four blocks of crumbled ruins, you know that it is a place of evil. You know that you have that moment left the spirit of Paris behind you, baffling scenes of gray heaven and some hovels, of few people, and the sweetness of Paris is left behind you.

THAT'S SOMETHING SOME

It is not all gray and dirty over that way, nor is the spirit of Paris left behind. There are some things that make the management make this contrast: "*Ce n'a droit de*" Paris, and there are some things that make the contrast "*droit*" Paris. Yesterday, for example, there's the hotel.

Then, further along the wasted streets, you come upon a little square, with a few shops, and a little church, and one of which, unless I am mistaken, comprehensively, means the Mairie, and there are a few people, and there are a few cars, and there, or in the neighborhood, the bus here is the hotel. Angie-an-Chateau, in the valley of the Alsace, is a little road from Cernay, which means a town, and it was in the hotel in Cernay in any American camp this time two years ago. But so you
