Map 1.—Per cent of drafted men passing physical examination, by States.

An attempt has been made to compute from the records of these two sets of physical examinations data which will show how the men from the different States compared in their physical qualifications. Results are presented in map 1 on this page which shows four classifications of the States.

First come those States which are indicated in outline. These are the States which sent men of so high an order of physical condition that from 70 to 80 per cent of them survived the two examinations and were accepted into the military service. It is noteworthy that these States constitute about one-quarter of all, and are mostly located in the Middle West. Next come the States from which 65 to 69 per cent of the applicants were accepted, and these are indicated by light diagonal lines.
