

THE YANKS ARE COMING

This Map Illustrates Troop Sailings from American Ports to Great Britain and France

During our 19 months of war more than 2,000,000 American soldiers were carried to France. Half a million of these went over in the first 13 months and a million and a half in the last 6 months.

The highest troop-carrying records are those of July, 1918, when 306,000 soldiers were carried to Europe and May, 1919, when 330,000 were brought home to America.

Most of the troops who sailed for France left from New York. Half of them landed in Great Britain and the other half landed in France.

Among every 100 Americans who went over 49 went in British ships, 45 in American ships, 3 in Italian, 2 in French, and 1 in Russian shipping under English control.

Our cargo ships averaged one complete trip every 70 days and our troop ships one complete trip every 35 days.

The cargo fleet was almost exclusively American. It reached the size of 2,600,000 deadweight tons and carried to Europe about 7,500,000 tons of cargo.

The greatest troop-carrier among all the ships has been the *Leviathan*, which landed 12,000 men, or the equivalent of a German division, in France every month.

The fastest transports have been the *Great Northern* and the *Northern Pacific*, which have made complete turnarounds, taken on new troops, and started back again in 19 days.
