COLLIER'S for September 20, 1924 /p. 7

Did You Know That Babe Ruth—

- Was told by Miller Huggins, the manager of the Yanks, a year ago last April that he was slipping as a ball player and was headed for the graveyard of the has-beens?
- Sometimes consumes half a dozen mustard-drenched "hot dogs" and several bottles of sarsaparilla in the course of a ball game, *imagines* he has stomach trouble, and eats great quantities of bicarbonate of soda before almost every game?
- Does not wear any underwear, winter or summer?
- Has a mania for frog hunting and could become the country's premier frog catcher if he had the time?
- Was once helped out of serious financial difficulties by Mrs. Ruth, who was able to write out a check for \$65,000, a sum which she had accumulated pin-money fashion without his knowledge?
- Made and spent almost a quarter of a million dollars in the year following his home-run record performance?
